

We live in one of the most remote Areas in the U.S.A.
Meacham Lake Oregon. We have Direcway Satelite For Our
Internet. It is very expensive , \$600 + \$60 A month.
I would Like to see you put the Money into what is already
In Use and help get the cost of it down Not intrupt
Ham Bands, with excessive Power loads in the
Electric Lines. HAm Radio is what we have to use
for our only free Communications in this area .
Our Entire Phone book is One typed page of names
(Helix Phone Co.) They Charge us a \$20 . a Month
for Local service We can call about 5 neighbors
free the rest is Long distance .
Our TV is C Span Satelite .
We Don't need BPL Or any Electric Co .
Adding to our Burden By Sending Interferance
thru the Power Lines. Don't Do It for us and
Don't use us as an excuse . We have fought
for years to get Internet at all if we try
to use the use the Phone Lines,dial-up,
It is garabage at \$300. a year. for almost
nothing. Now we have Our Satelite Internet
and it is very efficent and Very Fast.
Thank You but I Vote NO ! Just help lower
the rates we have now.
Charlene E . Davis

P.S.
A Buy out of these Small Local Phone
companys would be the way to help us
Rual Wilderness folks!
